did you know...

Your heating and cooling system is the most important major appliance in your home accounting for over 50% of your utility costs and essential to your comfort. Regular maintenance is the **SHIELD** against costly, sudden breakdowns and ensuring your family's continued health and wellbeing!

Steinhardt's Comfort **SHIELD** program was specifically designed with over 40 years of experience to offer you the most comprehensive and affordable maintenance plan available. Steinhardt's Comfort SHIELD also includes additional discounts on services and equipment to help save you money and add value to your investment.

We service **ALL** systems no matter what brand is in your home!

Your heating and cooling is 54% of your household energy consumption*

54%
Heating & Cooling!

Regular maintenance lowers utility bills on average a \$100 per year**

*2010 Energy Star Data base chart 2.1 on residential usage

**MONEY magazine research August 2007

STEINHARDT COMFORT SHIELD PROGRAM PROTECTION:

peace of mind

An EPA Certified technician will visit your home twice a year and perform a full point inspection. Visits last approximately 1 hour but vary depending on the condition of the equipment and additional work that may be recommended. Please let the technician know about any concerns you have about performance issues, such as noises, temperature control, rooms that aren't heating or cooling, etc.
